Attorney's Docket No.: 12816-001 / S1187 SB

IN THE ABSTRACT:

Please replace the abstract with the following version:

AM A method of fabricating a barrier layer includes oxidizing a silicon-containing substrate to form a substrate oxide layer on the surface of the substrate, producing an oxygen-impervious layer at an interface between the substrate oxide layer and the substrate, and etching the substrate oxide layer until the underlying oxygen-impervious layer is uncovered.
